

## Meet the Board

**Name:** Sydney Crable

**I am:** Currently the President of the California State Board of NEW: PATHS

**My current position is:** Staff Development Trainer for the Human Services Department

**County Agency:** Santa Cruz

**I have served:** 8 years on the Board

**NEW Offices I have held and Committees I have participated on:**

Professional Development: Chair, Legislative: Chair, Nominations: Chair, Audit Committee and was site chair for the 2009 Annual State Conference

**My vision for NEW: PATHS:** I am looking forward to the day when Eligibility Professionals from every county in the state will be a member of this organization. It has always been a vision of mine that this organization will bring all Eligibility Professionals closer by the networking we share at each conference. We are each a part of the glue in our prospective organization/county that works to service our community's needs. I envision more of us coming together to network and share stories and to let our fellow peers know that we share a commonality and we will get through the changes together.

**A little bit about me:** I love my family and I am a proud mother of two. My son and daughter have blessed me with four wonderful and adoring grandsons. Being a grandparent has made me look at the world through new lenses. I still enjoy reading but gazing out over the vast ocean makes me appreciate waking up each day to a new adventure. Each year this Board is a new and exciting adventure for me. I am honored to have been selected the President of this organization.
